Hi Glenn-

Based on the updates to the Installation, Operation and Maintenance Manual, regarding the AK500, the Department will proceed with adding the AK500 to the List of Applicable Advanced Wastewater Pretreatment Device Manufacturers pursuant to N.J.A.C. 7:9A-8.3. Please be aware that the process to include the device and update the webpage may take several weeks. We appreciate your patience and will email you once the update has been completed.

Thank you.
